

Northeast Gas Association's

Regional Market Trends Forum

**May 9, 2024
Hartford Marriott Downtown
Hartford, CT**

8:00 a.m.

Registration—Coffee—Continental Breakfast

9:00 a.m.

Welcome & Opening Remarks

José Costa, President & CEO, Northeast Gas Association (NGA)

SESSION 1

9:10 a.m.

Keynote Panel: State Commissioner Update

The Northeast states are at the forefront of energy and environmental policymaking, from clean energy investments to advancing electrification, reducing emissions, and phasing out fossil fuels. A discussion with state regulators on the progress, opportunities and challenges.

SESSION 2

10:10 a.m.

Meeting Demand

Northeast interstate pipelines, producers and LNG companies continue to meet increasing demand in the region. In an environment where building infrastructure is challenging, how will the region meet the need for reliable, affordable energy?

11:00 a.m. - Coffee Break

SESSION 3

11:15 a.m.

Ensuring Reliability — The Future of Electric & Gas Coordination

From Washington, D.C. to state capitols, coordinating the gas and electric sectors is at the top of mind.

12:15 p.m. - Lunch Break

SESSION 4

1:30 p.m.

Clean Energy Evolution: Understanding the implications for Consumers

Both residential and commercial customers will be impacted by ambitious clean energy plans. Understanding customer expectations and how energy intensive users will comply.

SESSION 5

2:30 p.m.

Natural Gas Utility: Achieving Decarbonization

Natural gas utilities have played a critical role in reducing emissions. Learn how utilities are evolving to meet regulatory and policy mandates, through innovative new projects, while continuing to reliably and affordably serve customers.

3:30 p.m. Concluding Remarks José Costa, NGA
