

## **Lead Analyst-Regulatory Support**

Berkshire Gas is seeking qualified candidates at its Pittsfield, MA location for the position of Lead Analyst-Regulatory Support to assist with regulatory aspects of gas supply. The successful candidate will make required regulatory filings to ensure adequate resources and to recover natural gas-related costs. Determining costs for budgets and coordinating monthly closing of books are also required.

This position requires a Bachelor's degree in Accounting, Finance, Economics or Business Administration or related field and 5 years of professional level experience with at least 1 - 3 years of accounting or related experience. The candidate must have the following: excellent analytical and problem solving skills, proficiency with Excel and financial management/accounting principles. The ability to work independently and meet deadlines is essential. Gas pipeline experience is desired, as well as familiarity with utility/natural gas regulation, deregulation and procurement.

If you possess the qualifications we are seeking and are interested in a career with an established company that offers competitive wages and benefits package, please apply via this web-site:
