

Northstar Industries is seeking natural gas engineers, project managers, and designers for their Methuen, MA location. Candidates with an expertise in any of the following fields are desired: civil, electrical, piping, and instrumentation. Potential engineers and project managers must have experience with natural gas pipelines, gas storage, CNG, or LNG.

Northstar is a premier supplier of natural gas pipelines, interconnect facilities, LNG, CNG, and gas storage. We provide grassroots project development, project management, consulting, engineering, procurement, and construction (EPC) services to natural gas pipeline companies, gas producers, gas storage providers, industrials, and the power sectors. Northstar's full time staff includes welders, electricians, engineers, programmers, business personnel, MIS, and HR. Unlike many providers we are able to design, manufacture, and install equipment for the industry.

Northstar Industries is an Equal Opportunity/Affirmative Action Employer. Northstar maintains a DOT regulated drug free work place and supports a smoke-free environment.
