9:00 a.m.

Welcome & Opening Remarks

José Costa, President & CEO
Northeast Gas Association (NGA)

SESSION 1

9:10 a.m.

Keynote Panel: State Commissioner Update

The Northeast states are advancing policy initiatives in energy and environment, from clean energy investments to advancing electrification, reducing emissions, and phasing out fossil fuels. A discussion with state regulators on the progress, opportunities and challenges.

Speakers:

Diane Burman, Commissioner, New York Public Service Commission

Marissa Gillett, Chair, Connecticut Public Utilities Regulatory Authority

Robert Hayden, Commissioner, Massachusetts Department of Public Utilities

SESSION 2

10:10 a.m.

Maxed Out: Gas Transmission

The interstate pipeline and LNG companies continue to meet increasing demand in the northeast while infrastructure projects are challenged, banned or abandoned. Where are the opportunities and where do we go from here?

Speakers: to be announced shortly

11:00 a.m. - Coffee Break

SESSION 3

11:15 a.m.

Mission Critical: Ensuring Reliability

The regional ISOs are charged with ensuring that each and everyday the region has reliable, competitively priced wholesale electricity. What are the opportunities and challenges as the region makes the clean energy transition.

Speakers: to be announced shortly

12:15 p.m. - Lunch Break

SESSION 4

1:15 p.m.

The Customer is Always Right: Understanding the impacts of the clean energy transition

Both residential and commercial customers will be impacted by ambitious clean energy plans. Understanding customer expectations and how energy intensive users will comply.

Speakers: to be announced shortly

SESSION 5

2:15 p.m.

Natural Gas Utility: Safe, Reliable, Affordable & Energy Efficient

In recent years natural gas utilities have played a critical role in reducing emissions. This panel will explore how the utilities are evolving to meet regulatory and policy mandates while continuing to reliably and affordably serve customers.

Speakers: to be announced shortly

3:15 p.m. **Concluding Remarks** José Costa, NGA
