Title: Manager, Instrumentation and Regulation Technology and Compliance

Location: Southborough, MA

This position is responsible for providing oversight to the I&R Technology and Compliance team and to ensure that Eversource's gate station and district regulators operate safely, reliably and compliant with federal regulations and industry best practices. Additionally, this position reviews new and existing I&R equipment and associated technologies, construction designs and overall maintenance practices to identify areas of improvement.

Responsible for providing expertise and technical support to the I&R Operations team. Accountability includes but is not limited to, public and employee safety, O&M and Capital budgetary controls, supporting construction and maintenance activities involving gate stations, regulator stations, and telemetry equipment.

Essential Functions:

- Manages and provides functional and administrative direction to all members of the I&R Technology and Compliance team.
- Participates in internal and external I&R audits, gathers documentation and draft technical responses in order to support to the I&R Operations team.
- Performs internal audits in order to ensure regulatory compliance and mitigate risks.
- Provides Technical support to I&R Operations, assists with troubleshooting of I&R equipment and technologies.
- Serves as a Technical liaison between Gas Engineering, equipment manufactures and I&R operations.
- Prepares I&R compliance reports.
- Facilitates compliance efforts by overseeing and providing technical assistance where required, including, but not limited to, identifying and evaluating program areas and/or any compliance issues, recommending solutions, and their associated cost estimates, providing training and education and oversight of compliance efforts as required.
- Reviews and approves time, vehicle and expense reports, purchase requisitions and invoices related to departmental activity.
- Review external state and federal agency audit findings and prepare responses and/or recommendations.
- Assures that the department meets regulatory code compliance for gate stations, regulator stations and gas system instrumentation.
- Evaluates staffing requirements and proposes changes when required.
- Develops, prepares and manages operating, maintenance and capital budgets within the I&R department.
- Assures that systems operate in compliance with Company environmental operating procedures.
- Leads the department in the implementation of new processes and work practices as required by the business.
- Initiates and manages positive change within the I&R department.

Qualifications:*Technical Knowledge/Skill:*

- Strong knowledge of gas engineering, I&R construction and maintenance policies, procedures and practices.
- Strong Technical writing skills
- Familiarity with governmental codes and regulations effecting gas distribution

Education:

- B.S in Engineering, related technical degree or equivalent experience may be considered

Experience:

- Minimum of ten (10) to twelve (12) years related experience
- Prior Instrumentation and Regulation experience is a plus

Leadership Behaviors/Competencies:*Set and Communicate Direction and Priorities*

- Communicate priorities and goals (company, department, team)

Manage and Develop People

- Set realistic performance objectives

Focus on the Customer

- Ensure that everyone on the team understands our customer promise and provides superior customer service

Working Conditions

- This position is categorized as safety-sensitive for the purpose of drug testing. Successful applicants shall be subject to a pre-assignment drug test if the individual is currently in a non-safety sensitive position. As an employee in this position the individual shall be subject to random drug testing. A positive drug test will result in disciplinary action.
- Must be available to travel between MA/CT/NH as necessary.

Emergency Response:

Responding to emergency situations to meet customers' needs is part of every employee's role. If employed, you will be given an Emergency Restoration assignment. This means you may be called to assist during an emergency outside of your normal responsibilities, work hours and location.
