Eversource Energy is the largest Energy delivery company in New England. We support 3.7 million Gas and Electric customers across CT, MA and NH. Be a part of our mission to deliver reliable energy and superior customer service. *ENERGY-BRINGS US TOGETHER!!*

**Project Engineer, Southborough, MA**

This position performs, or assists in, major/complex projects including the design, procurement, installation and testing of systems and devices that will repair, replace, improve or increase the Gas organization's physical assets and provide for permit requirements and regulatory compliance.

**Essential Functions:**
- Designs systems or installations to fit the Company’s objectives, with some latitude for independent action and decision making, conforming to industry standards, guidelines and regulations of federal, state and local authorities.
- Specifies and procures materials and equipment, coordinates in-house and contract labor to install and test new installations in a timely fashion with input from vendors, engineers and Company departments.
- Develops and maintains procedures to ensure compliance with federal, state and local regulations and codes.
- Trains junior staff and reviews all their work.
- Oversees the procurement of all federal, state and local permits and notifications required for each job. Provides technical and financial support to upper management for future needs and budget allocations.
- Supports values and commitment to Eversource's mission, strategy and values. Provides direction or assistance in carrying out assignments. Coordinates resources required to complete processes or projects.
- Utilizes fundamental gas flow equations and hydraulic software to design or recommend changes to existing gas piping systems.
- Designs gas take stations, district regulators, bridges and railroad crossings.
- Implements and monitors gas compliance programs that include corrosion control and leak surveys.

**Technical Knowledge/Skill:** Requires theoretical and conceptual knowledge of discipline to develop and evaluate a process, procedure or regulatory requirements in the gas distribution business. Also requires an understanding of Company structure and business practices to implement procedures.

**Education:** Requires a Bachelor of Science Degree in Mechanical Engineering or related engineering degree.

**Experience:** Minimum of five (5) years related experience. Gas experience a plus.

This position is safety sensitive and is subject to random drug testing.

Please submit a resume with your application.

---

**EEO Statement**
Eversource Energy is an Equal Opportunity and Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to age, race, color, sex, sexual orientation, gender identity, national origin, religion, disability status, or protected veteran status.
