

Field Operations Technician – Croghan, NY

Summary:

This position will perform DOT required operations and maintenance tasks for various compressor stations. Candidate will be involved in cross-functional day-to-day activities in the disciplines of plant operations, pipeline damage prevention, gas measurement and maintenance/compliance tasks associated with high pressure gas pipeline systems. This position requires active participation in Iroquois' Safety and Environmental programs with an emphasis on finishing each day incident and injury free. The candidate will perform operational and maintenance tasks to assure continuity of operations of assigned facilities within Company operating/safety/environmental procedures; operability of engines, compressors, cooling equipment, pumps, valves and fittings and other associated equipment. Must be adaptable to changing priorities and project conditions. The incumbent must live within a 30 mile radius of the Croghan facility.

This position is safety sensitive as defined by the US DOT and subject to random drug and alcohol testing.

Knowledge:

Strong knowledge of electrical controls, instrumentation is required. Knowledge of pipeline regulations, damage prevention programs and pipeline maintenance is desirable.

Education and Experience:

Three to five years of experience with measuring equipment (ultrasonic and turbine meter preferred) and communications equipment (such as WAN, VSAT and telephone) in the natural gas industry is preferred. Experience with flow computers, RTU's pressure and temperature transmitters, field emergency response and general natural gas safety practices.

Experience with PLC based controls and gas turbines. Ability to operate, troubleshoot and maintain natural gas plant equipment, pumps, exchangers, compressors, and related auxiliary equipment. Ability to read & interpret Operations & Maintenance manuals, blueprints and to follow company policies and procedures. Manual dexterity with physical ability to work in situations which require bending, kneeling, squatting, reaching & lifting/carrying up to 50 pounds

- A valid driver's license and good driving record required.
- Basic PC computer skills and trainable to custom software applications.
- Ability to prioritize, handle multiple tasks and projects concurrently.
- Good communication skills - must be able to interface effectively with many internal and external customers, land owners, regulator officials, company contacts & coworkers.

Ability to respond in a timely manner to any emergency or after-hours calls. May be exposed to working in harsh weather. Work schedules may include weekends and holidays as well as after-hours call-outs required by operational need or emergencies.

All positions require pre-employment background verification and drug & alcohol screening. Iroquois is committed to being a safe and drug-free workplace. We appreciate your cooperation in keeping Iroquois safe and drug-free.

In accordance with DOT regulations (49 CFR section 40.25), Iroquois is required to obtain prior drug and alcohol testing records for applicants/employees intending to perform safety-sensitive duties for covered DOT positions who have held similar positions in the past. If an applicant/employee refuses to provide written consent for Iroquois to obtain these records, he/she will not be permitted to perform safety-sensitive functions.

Iroquois is an Equal Employment Opportunity/Affirmative Action employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, national origin, protected veteran status, disability status, sexual orientation, gender identity or expression, marital status, genetic information, or any other characteristic protected by law.
