

Field Operations Technician – Long Island

Summary:

This position is located on Long Island, NY and is a uniquely remote position for Iroquois Field Operations. Incumbent must be self-directed as they will not be physically reporting to a company location each day. Incumbent must have ability to provide a secure and private location in their existing residence to perform their functions. Individual will have significant travel to other Areas and subsequently other Iroquois facilities. Individual must live no more than five (5) miles to the east or thirty (30) miles to the west of the South Commack Meter Station located at: 40 New Highway Commack NY.

Individual will perform a variety of operational and maintenance tasks associated several areas (e.g. pipeline maintenance, measurement, corrosion, compression) to assure continuity of operations of assigned facilities within Company operating/safety/environmental procedures. Insure operability of engines, compressors, cooling equipment, pumps, valves and fittings and other associated equipment. Operate and maintain assigned company vehicles and equipment. Compliance with Company procedures and policies is critical to this position. Follow all safety procedures. Ensure operator qualification compliance through continued education and training.

This position is safety sensitive as defined by the US DOT and subject to random drug and alcohol testing.

Knowledge:

Ability to read and interpret operating manuals and engineering standards. Knowledge and hands-on skills using various mechanical/electrical/measurement/hand and power tools to operate and maintain a compressor station, turbines and related equipment. Effective analytical and problem solving skills. Ability to prioritize and handle multiple tasks and projects concurrently. Effective oral/communication/basic computer skills. Ability and desire to read and understand procedures prior to performing work as a matter of routine practice.

Experience with PLC based controls, turbines compression equipment a plus.

Education and Experience:

High school degree/GED/technical degree and/or industry experience with a technical background.

Minimum five years' work related experience.

Our facility is located in an attractive campus like corporate setting with easy access to the highway, plenty of parking and lots of amenities: on-site fitness facility, walking paths, several cafes' and much more. As a valuable member of our team we offer a professional, friendly work environment where individuals are appreciated for their contributions.

All positions require pre-employment background verification and drug & alcohol screening. Iroquois is committed to being a safe and drug-free workplace. We appreciate your cooperation in keeping Iroquois safe and drug-free.

In accordance with DOT regulations (49 CFR section 40.25), Iroquois is required to obtain prior drug and alcohol testing records for applicants/employees intending to perform safety-sensitive duties for covered DOT positions who have held similar positions in the past. If an applicant/employee refuses to provide written consent for Iroquois to obtain these records, he/she will not be permitted to perform safety-sensitive functions.

Iroquois is an Equal Employment Opportunity/Affirmative Action employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, national origin, protected veteran status, disability status, sexual orientation, gender identity or expression, marital status, genetic information, or any other characteristic protected by law.
