Safe AND Clean AND Affordable
Enabled-Through Analytics

May 6, 2020
Picarro Solution Evolution
Hardware-Enabled Analytics

1,000x more sensitive
2 x Faster
Find 2.5 x More Gradeable Leaks
Find 3x More Hazardous Leaks than traditional survey

Operational Value Focus
Operational Risk Reduction
Environmental Stewardship
Infrastructure Modernization
Picarro’s Natural Gas Asset Management Solution

Collect Data Once

- Data from Picarro Hardware

Multiple Applications to deliver Operational Value

- Utility & External Data Inputs, Utility Data Systems Connectivity

- Weather, Geo-Spatial, ERP, GIS, CRM
Picarro Enables Data-Driven Decision-making

Safe & Efficient
Operational Risk Reduction
- Construction QC
- Advanced Leak Survey
- Pre-Event
- Leak Risk Ranking
- Auditing Leak Survey
- Frost Patrol
- Odor Call Response
- Abnormal Operating Condition

Safe & Affordable
Infrastructure Modernization
- DIMP
- System Risk Reduction
- Budget & Risk Forecasting

Clean
Environmental Stewardship
- Super Emitter Identification
- Emissions Reduction
