About us

National Grid/Transgas is hiring a Director (Band D), Fleet and Portable Pipeline Operations for the Transgas LNG Trucking Operation in Lowell, MA.

Every day we deliver safe and secure energy to homes, communities, and businesses. We are there when people need us the most. We connect people to the energy they need for the lives they live. The pace of change in society and our industry is accelerating and our expertise and track record puts us in an unparalleled position to shape the sustainable future of our industry.

To be successful we must anticipate the needs of our customers, reducing the cost of energy delivery today and pioneering the flexible energy systems of tomorrow. This requires us to deliver on our promises and always look for new opportunities to grow, both ourselves and our business.

Job Purpose

The position of Director, Fleet and Portable Pipeline Operations reports to the Vice President, Operations and supervises the Facility & Dispatch Supervisor, Cryogenic Technicians, and oversees six union mechanics and union drivers as they relate to portable pipeline service operations.

Key Accountabilities

- Supervise the maintenance, repair and testing of all tractors, LNG trailers and portable vaporizers to assure the safe and secure transportation of LNG
- Supervise the testing of LNG trailers in compliance with Department of Transportation (DOT) requirements
- Maintain extensive, accurate and detailed records of repairs and testing
- Supervise all aspects of portable pipeline service work
- Supervise the purchase, inventory and use of all parts used in maintenance and repair of all vehicles
- Instruct and train drivers in the safe handling and transportation of LNG
- Oversee grounds and building maintenance
- Work closely with the Director, Safety and Director, Operations
- Portable pipeline oversight, including operation manual development, site surveying and equipment setup

Qualifications

- 5 - 10 years of in-depth fleet maintenance experience with a moderate sized fleet of Class 8 diesel powered tractors and large cryogenic tank trailers

- Familiarity of applicable rules and regulations affecting the trucking and gas utility industry
- Excellent supervisory and communication skills
- A minimum of 3 years work experience relating to the testing and inspection of cargo tanks
- Sound technical skills involving hazardous materials, cryogenic tank trucks and the gas utility industry
- Bachelor's Degree or equivalent work experience
- Valid driver's license required with a safe driving history that meets National Grid's Safe Driver policy

More Information

This position has a career path which provides for advancement opportunities within and across bands as you develop and evolve in the position; gaining experience, expertise and acquiring and applying technical skills. Candidates will be assessed and provided offers against the minimum qualifications of this role and their individual experience.

National Grid is an equal opportunity employer that values a broad diversity of talent, knowledge, experience and expertise.
