

Job Posting

Position Title: Manager, Gas Distribution Operations	Reports to: Vice President, Gas Operations
Company: Northern / Portland DOC	Department: Operations

Position Purpose

Supervise, plan, schedule and complete construction, operation, service, inspection and maintenance of the Company's gas distribution systems, including the repair and restoration of gas service during emergencies. Responsible for the effective management of local resources as required to meet the company's mission and goals, while ensuring the reliable, efficient and safe delivery of gas service to customers. Collaborates with operations and engineering colleagues to insure the effectiveness of operations business processes and practices; and with Business Development, Communications, and Customer Service personnel to foster successful relationships between Unitil and its service area communities and customers. Ensures that all work activities and interactions with customers, community leaders, and regulators reflect the highest standards for conduct and professionalism.

Qualifications

- Bachelor's Degree in Engineering, Business, or curriculum compatible with the requirements of the position or equivalent work experience.
- 10 years of progressively responsible experience, including proven supervisory/management experience.
- Must possess Operator Qualification (O.Q.) certification based upon the requirements set forth in D.O.T. 49CFR192, Subpart N.
- Must accept supervisory standby on an as needed basis.
- Must reside within a specified geographic area and be available for duties during times of system emergencies.

Unitil is an Affirmative Action/Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to sex, gender identity, sexual orientation, race, color, religion, national origin, disability, protected veteran status, age, or any other characteristic protected by law.
