Position Title: Manager, Pipeline Safety Management System (PSMS)  
Reports to: Vice President, Gas Operations

Company: Unitil Service Corp  
Department: Operations

Starting Salary: $106,055 - $132,569

Position Purpose

Responsible for the development, implementation, and sustainment of a Pipeline Safety Management System (PSMS) as specified by API RP 1173. This position includes all activities as specified by API RP 1173 as well as driving a continually improving pipeline safety culture. Responsible for coordinating and partnering with all internal business units to advance pipeline safety processes. Acts as the subject matter expert on safety and quality management systems. Ensures that all work activities and interactions with customers, community leaders, and regulators reflect the highest standards of conduct and professionalism.

Qualifications

- Bachelor's Degree in Engineering, Business, or curriculum compatible with the requirements of the position or equivalent work experience.
- Ten years of proven technical project/program management experience.
- Experience in the natural gas industry and pipeline safety regulation highly desirable. In-depth knowledge of industry codes and standards or a technical background a plus.
- Must have strong systematic and critical thinking skills and the ability to use logic and analysis to identify the strengths and weaknesses of different approaches.
- Requires strong organizational skills to manage a multitude of varying tasks in different stages of completion; must be able to multi-task, work under pressure, and meet strict deadlines.
- Must be available for duties during times of system emergencies.

Unitil is an Affirmative Action/Equal Opportunity Employer.
