Position Title: <b>Supervisor, Gas Transmission Construction</b>	Reports to: Manager, Gas Transmission & Corrosion Control
Company: Unitil / Portsmouth DOC (GSG)	Department: Gas Operations

## Position Purpose

Responsible for providing effective leadership, planning, scheduling, management of resources and supervision of personnel and equipment for construction, system expansion and replacement of the Company's interstate natural gas transmission facilities. Accountable for the design and completion of these projects in accordance with company standards, state and federal codes, while ensuring the reliable, efficient and safe delivery of gas via the interstate transmission pipeline and its associated facilities. Responsible for the planning and scheduling of such projects to ensure timely completion and within acceptable budgetary tolerances. Professionally interact with customers, regulatory authorities, and employees to ensure the company satisfactorily meets their needs.

## Qualifications

- Associates Degree in Engineering, related technical field, or equivalent work experience.
- (8-10) years of progressively responsible experience, including proven supervisory and construction management experience.
- Thorough understanding of 49 CFR 192
- Must be able to accept supervisory standby on rotation basis.
- Must reside within a specified geographic area and be available for duties during times of system emergencies.
- Must maintain a valid driver's license.
- Must possess Operator Qualification (O.Q.) certification based upon the requirements set forth in D.O.T. 49 CFR 192, Subpart N

Unitil is an Affirmative Action/Equal Opportunity Employer.
