

## Join our Team!

Are you ready to play an integral role in delivering safe, clean, affordable, and reliable thermal energy services and award-winning energy efficiency programs to 55,000 Vermonters in Chittenden, Franklin, and Addison Counties? If so, then Vermont Gas Systems (VGS) has the jobs for you!

We are seeking a detail oriented, innovative, and personable individual to join our Safety & Compliance team as a **Distribution Engineer**. The Distribution Engineer plays a key role in ensuring the safety of our system. Their primary focus is the development and implementation of distribution pipeline integrity management, operations, and maintenance. Responsibilities also include general engineering support for the VGS Operations Departments. Annual pay is based on experience and ranges between \$68,954.25 to \$103,426.08.

Come join our team and enjoy our great benefits including:

- Flexible, remote work opportunities
- Comprehensive health insurance available immediately
- 401K retirement plan with an average employer match of 7%
- Generous paid leave time
- Participation in annual bonus program
- \$10,000/calendar year towards educational assistance
- Paid parental leave
- Wellness incentives
- And more!

Voted one of the best places to work in VT, VGS offers a dynamic, team-oriented atmosphere and an opportunity to perform meaningful, impactful work. please visit our website [www.vermontgas.com](http://www.vermontgas.com) for more details and to apply.
